The LF4 range of wood stoves is manufactured at our state of the art facility in Darwen, Lancashire.

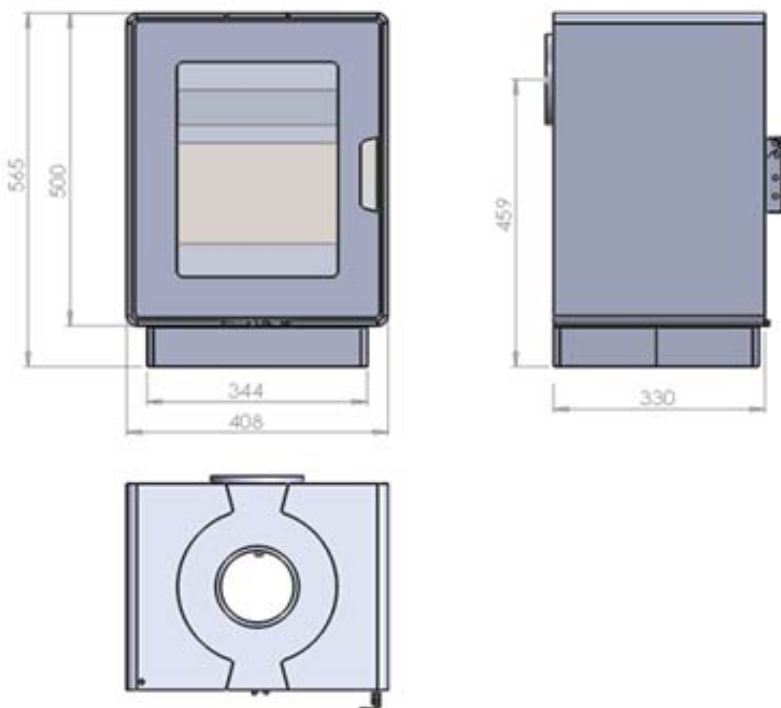

The range offers the connoisseur an unrivalled view of the flames, courtesy of our oversized glass panel and pre heat air wash technology.

These 4Kw CE approved models are available with a direct air feed option as standard, and as an Inset stove.

Certificated to sit on a non-combustable 12mm hearth and with 33 colour options available, this entry model stylish wood burning stove will complement any room setting.
